
Double drum roller

Double drum rollers are suitable for compacting thin layers on granular soils and asphalt. They are mostly used for small jobs, repair work and compaction in confined areas.

Features & benefits

- Fully hydraulic
- Large, removable water tank
- Built-in oil cooler for increased lifetime of vital components
- Heavy-duty protection frame with single lifting point for easy transportation
- Minimum overhang and high curb clearance
- Powerful engine for reliable operations

Applications

- Silt
- Sand & Gravel
- Clay
- Asphalt

Technical data

Technical Specifications	
Operating mass	696 kg
Centrifugal force	21 kN
Drum width	650 mm
Engine brand	Hatz
Power	6.8 kW
Speed, forward	60 m/min
Speed, reverse	38 m/min
Amplitude	0.45 mm
Frequency	61 Hz
Sound power level guaranteed*	107 dB(A)
Sound pressure level at operators ear	90 dB(A)
Vibration emission value*	4.3 m/s ²
